SUPPLEMENTARY GRADUATE TRANSCRIPT INFORMATION

Accreditation

DeVry University is accredited by The Higher Learning Commission of the North Central Association (NCA), www.ncahlc.org. The University's Keller Graduate School of Management is included in this accreditation.

Founded as an independent graduate school, Keller Graduate School of Management maintained a separate accreditation with NCA and awarded degrees through June 2002. In February 2002 NCA approved the merger of Keller and DeVry Institutes to form DeVry University. In New York, Keller and DeVry operated separately as Keller Graduate School of Management and DeVry Institute of Technology until April 2008, when the two institutions were merged to form DeVry College of New York.

Grading System and Grade Point Averages

Grade point averages (GPAs) are calculated for all matriculated students and are based on the following 4.0 scale. Pluses or minuses add or subtract, respectively, 0.3 from the grade points listed. Grades of A+, F+, F-, I+ and I- are not used. Designators do not have associated grade points and are excluded from GPAs. When issued for courses that are graduation requirements, designators may represent credit earned toward graduation unless otherwise noted below.

Grades	Grade Points
A – Superior	4.0
B – Good	3.0
C – Satisfactory	2.0
D – Met minimum standards	1.0
F – Failed to meet minimum standards	-0-
I – Incomplete course requirements	-0-

Designator	Definition
AUDIT	Audit (no credit toward graduation)
EX	Course exemption
N	Final grade not yet posted (no credit toward graduation)
S	Satisfactory
TRNFR	Transfer credit from another institution.
U	Unsatisfactory (no credit toward graduation)
W	Official withdrawal (no credit toward graduation)
WAV	Course waived, must be replaced with an elective (no credit toward graduation)

GPAs are calculated based on performance in courses applicable to the program of enrollment. Separate cumulative GPAs (CGPAs) are calculated for each degree program. Courses taken by non-matriculating students are graded and credit is awarded, and although a term GPA may be listed, a CGPA is not calculated. All attempted coursework appears on the transcript.

Repeated Courses

An asterisk (*) preceding the course title indicates a repeated course. Effective September 2006, the highest grade is used to determine the CGPA when courses have been repeated. For elective course requirements, students may substitute a different elective in lieu of repeating a particular elective. These substitutions are not marked as repeated courses.

Academic Standing

Academic Standing is not noted on this transcript.

Academic System

The graduate school currently operates on a semester system, offering three 16-week semesters per year. Courses are taught in two 8-week sessions each semester, and are associated with three semester-credit hours unless otherwise noted. GPAs and academic standing are calculated at the conclusion of each semester.

Prior to July 2003, the graduate school operated on a quarter system. Courses were taught in five 10-week terms per year, and were associated with four quarter-credit hours unless otherwise noted. At the transition, neither the course numbers nor the courses required for graduation changed. For students who attended under both systems, the transcript displays the credit hours associated with the system under which the course was taken. However, starting in July 2003, CGPAs are calculated using the semester-credit value for each course. Additional semester-based academic statistics may include term and cumulative attempted credit hours (Attempt Hrs) and earned credit hours (Earned Hrs).

Course Numbering

Courses numbered below 500, as well as IS505 and TM505, are pre-requisite skills courses and are excluded from the GPAs. Other courses numbered 500-599 are either required or elective courses, depending on the particular degree program. Courses numbered 600-699 are either capstone courses or advanced seminars.

Graduation with Distinction

Graduation with Distinction is reserved for degree students having a CGPA of 3.7 or higher in the graduation semester. Prior to September 2006, a separately-calculated CGPA was used to determine eligibility for Distinction. Prior to September 1998, Distinction was awarded to students with a CGPA of 3.5 or higher.

Historical Information

Grading Systems Prior to 2003

From 1973 through 1979, students were evaluated using several configurations of grades, designators and credit hours. The following designators may also be associated with courses taken prior to 2003:

Designator	Definition
AFC	Credit for financial accounting foundations
CPC	Credit for professional certification
CR	Course credit
WF	Withdrew failing (no credit toward graduation)
WP	Withdrew passing (no credit toward graduation)

Certificate in Business Administration

A Certificate in Business Administration (CBA) was awarded to students who enrolled prior to the 1981-82 academic year and who successfully completed the core courses.

Master of Project Management Program

From 1985 through 1991, Master of Project Management (MPM) courses were offered and MPM degrees were awarded by DeVry Institute of Technology. In September 1991 the MPM program was transferred to Keller Graduate School of Management, which subsequently offered the courses and awarded MPM degrees.

TO TEST FOR AUTHENTICITY: The face of this document has a blue background and the name of the institution printed across the face. In addition, this *SafeImage™* paper has numerous security features, which may be verified by:

- Noting the *SafeImage™* watermark. Hold up to transit light to verify.
- Identifying visible blue and red fibers embedded into the paper.
- Inspecting with a UV black light to view invisible fluorescent blue fibers.
- Applying fresh liquid bleach to activate a color stain chemical protection reaction.
- Inspecting the background with a magnifier to verify the encrypted *NaNOcopy™* algorithm.
- Noting that photocopying the document produces the word "COPY" across the face.
